RAMP

IMPROVE PATIENT CARE AND SPEND LESS TIME WITH HEALTH PLANS!

Tyrula's RAMP solution helps you maximize revenue while reducing time spent dealing with various health plans.

What is RAMP?

RAMP is a software solution that enables you to prioritize high risk patients, confirm their chronic conditions, transmit medical records to the payer, and get paid for it.

Why choose RAMP?

Provider Challenges

Medical Records:

- Strangers coming and going from your office
- Disruption in workflow
- Time and resources to respond to health plans' constant requests for medical records

Incentives:

- Missed opportunity to capitalize on revenue

Reporting/Communication:

- Each health plan has its own communication and reporting methodologies.

Reduce Visits from Insurance Companies and Vendors

- Securely send medical records to all health plans at your convenience, easily with one-click from your paper-based records or your EMR system.
- Health plan's staff typically comes to your site to train on best practices for documenting records. RAMP is able to provide you with these best practices without experiencing disruption to your practice.

Ramp up your revenue

- A single place to view your incentives
- Should you have any questions on your incentives, you can communicate directly with payer staff
- Having one set of best practices that align with documenting chronic diseases will maximize your revenue

RAMP will:

- Allow you to transmit medical records securely to payers
- Show you your potential incentives
- Provide you with standardized reporting
- Increase transparency between you and your payers
- Instill best practice for documentation

What people are saying about RAMP

"One click and submit! This product helps us maximize our P4P dollars across all insurance companies without adding unnecessary steps."
